

PRODUCT SPECIFICATION SHEET

MODEL NO.: 2530DT
ITEM: Dual Triode Cavity Amplifier
DATE: December 20, 2000

Specifications:

Frequency:	2856 MHz
.5 db Bandwidth	± 1 MHz (min)
RF Power gain	20 dB minimum
RF pulse width first stage	20 microseconds (max)
R.F. Power Out	650 watts @ 2 W input nominal
P.R.F.	250 pps
Duty Cycle	.005
Plate Voltage	2300 volts DC
Plate Current	2.0 amps peak (nominal)
Plate Capacitor	6 microfarad / 3000 V
Cathode Bias	+50 volts
Cathode Modulator	Pulse to ground
Filament Voltage	5.3 to 5.7 VDC
Input/output connector	SMA Female

Units are supplied with interstage isolator
